

As a Flight Attendant, I believe that cell phone use onboard aircraft is a horrible idea for the reasons I will state below.

- There is no hard evidence that cell phone use doesn't interfere with navigational instruments.
- Cell phone use would enable terrorists to coordinate a plan of action more effectively.
- The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations.
- It would make an already tense cabin environment even more stressful.
